Director's Message

Dear Parents,

Founding Aryakulam is the fructification of a long cherished dream. I always wanted to touch people's life through education. I have always believed that an investment in knowledge pays the best interest. The *raison d'être* of founding a school is to generate profits in the human, societal and national sense. In a school, we work on the biggest capital of all—HUMAN CAPITAL. What a school takes from the society is not very important. What a school returns to the society is of paramount importance. And the school gets only ONE chance! There are no retakes, no second chances. At Aryakulam we realize that your sending your child to us is an act of FAITH. I assure you that team Aryakulam and I personally will leave no stone unturned to uphold your faith. I could write so much about what we have to offer to your child in terms of faculty, facilities, technology and infrastructure. But that is not the intention behind this message. As the founder Director of Aryakulam, I wish to assure you that we will work on your child. We will spare no effort in our sincere endeavour towards making your child realize his/her true potential. And when the time comes for your child to spread his/her wings and take off in the sky of this world; I assure you that you will feel thankful and proud that you sent your child to Aryakulam.

About Aryakulam

The year 2017 is the year of birth of Aryakulam, an institution dedicated to providing the highest quality education to its students. We at Aryakulam believe that education is not merely a means to secure a job. It's our firm belief that Education is an investment in a better future for the society and the Nation. Accordingly at Aryakulam we groom children in an environment aimed at identifying and developing their latent talents with the help of the best possible faculty and latest technology. Located in pristine surroundings, away from the noise and pollution of the city, Aryakulam is a center of excellence—an institution where you sow a child and reap a leader.

Our Guiding Principles Education

Aryakulam students participate in a challenging preparatory curriculum from nursery to grade-five with ample opportunities for individual attention and personal growth. The use of advanced technology tools in the classrooms, like smartboards, computers and digital library makes Aryakulam a forerunner among contemporary schools. Our well-balanced, in-depth approach to education ensures every student gains the tools necessary to be successful in our fast-paced and ever changing world.

Discipline

The precepts of respect, responsibility, persistence and fairness are instilled in our students as part of their education in an enabling environment where they learn to be independent and responsible. Adoption of these same principles further prepares them to become good citizens, co-workers and neighbours in future.

Nationalism

Education at Aryakulam shall generate and foster a feeling of love, respect and belongingness for the Nation. At Aryakulam, development of a deep-rooted feeling of Nationalism in the hearts and minds of students is the ultimate objective. Our aim is to produce responsible citizens and proud Indians.

Service

We at Aryakulam teach our students to think of others first and share our God-given talents. At Aryakulam we believe in teaching our students to practice service to the people and the society as it is just as important as preparing them to excel in their studies. Whichever way they serve, the selfless efforts of the children teach them the innumerable rewards that come from helping someone in need.

Principal's Message

Dear Parents,

Aryakulam is an institution dedicated to imparting knowledge and developing the inherent skills of its students. At Aryakulam, we do not limit a child's development or judge the same by the marks that he/she gets in exams. Here we do not believe in the rat race. We encourage our students to compete not with others but with their own selves. It's true that we have the best of faculty, infrastructure and technology. But, more than that, we have the best of intentions. And while there are 'n' number of reasons why you should send your child to us, this reason alone is enough for the same. I, in the capacity of Principal, promise you that my team will go beyond the call of duty in making your child a confident, determined, knowledgeable and skillful individual—one who will eventually be an asset for the society and the nation.
